Department of Public Health Sciences

Course: Applied Research Methods for Program Planning & Evaluation (EPID 806)

The Department of Public Health Sciences at Queen’s University is seeking a Term Adjunct to teach Applied Research Methods for Program Planning & Evaluation (EPID 806), a mandatory course for Master of Public (MPH) students and an elective course for Master of Science (MSc) students. This position is for a single term commencing in January 2018 and concluding in April 2018.

EPID 806 is a half credit, graduate course. The class is scheduled weekly, for 3 consecutive hours, for the duration of the 12 week term. The enrolment will be between 45 and 60 students.

This course provides an overview of health research methods and tools to assist student to complete the ‘Evidence to Action’ planning and evaluation cycle. Topics covered include: defining the issue, using surveillance data, engaging the community, conducting a stakeholder analysis, survey methods, handling qualitative data, building logic models, choosing indicators, communicating the results and taking action. Applicants are encouraged to review the Canadian National Collaborating Centre for Public Health (Methods & Tools) and to place their proposed syllabus within the framework of the Queen’s MPH Program learning outcomes. (http://www.queensu.ca/phs/master-public-health/prospective-students/mph-program-outcomes).

Duties and Responsibilities

The successful candidate will be responsible for generating a course syllabus, compiling and distributing course materials, instructing weekly classes, communicating effectively with students, providing on-campus office hours and working effectively with a Teaching Assistant to ensure a successful course delivery. Instructor will be responsible for teaching 100% of the course.

Qualifications and Experience

Interested individuals are required to have a PhD in a Public Health-related discipline or a post-graduate degree with professional experience using applied research methods to conduct health program planning & evaluation and teaching experience in a related course.

Salary

In accordance with the Queen’s University Faculty Association collective agreement.
Application

It is asked that all interested and qualified candidates submit a complete and current curriculum vitae, a proposed course outline and the names and contact information for two referees who may be contacted.

Applicants are also invited to submit any other relevant material (eg. teaching dossier).

Please email all documents to:

Dr. William Pickett, Department Head
c/o Lee Watkins, Administrative Assistant
