"Make America Great Again"

By Pastor Thomas Robb

"Make America Great Again!" It is a slogan that has been repeatedly used by Donald Trump in his campaign for the presidency. You can see it on shirts, posters, buttons and ball caps such as the one being worn here by Trump speaking at a recent campaign rally. Trump evidently anticipated his run for the presidency long before anyone was whispering Trump and President in the same sentence.

Just 6 days after Obama won his second term against Mitt Romney, Trump applied to the U.S. Patent and Trademark Office for the exclusive ownership and right for use of the slogan. On November 11, 2012 Trump received the application number 1207224. I am not sure how many people this slogan resonates with, but evidently there was enough to allow Trump to win the Republican primary. The slogan appeals to people who are sadly realizing that something has happened to America. And it's not good!

which are foreign to our traditions, our spirit and our faith.

Who would have thought that the day would come upon us when the White House would be lit aglow with the colors of the rainbow promoting the program of the vile homosexual agenda? Who would have thought that same-sex marriage would be legally (thus forcibly) placed upon us? And while it is both

loathsome and vile to witness this deplorable change which has taken place, it becomes even more alarming when we

al deviants like Bruce Jenner are praised for their courage, while a White Nationalist who says nothing more than "Love your People!" is treated like the scum of the earth that society (especially our kids) must be protected from. Wholesome understandings of race and gender have been totally turned around and we are in that day spoken of in Scripture

when evil will be called good and good will be called evil. The Bible correctly identifies us as a wick-

to ask ourselves, "What made America great in the first place?"

The short answer to that is simple: America was great not because of what our forefathers did - but because of who our forefathers were. America was founded as a White Christian Republic. And as a White Christian Republic it became great. In fact, it became the greatest country in the history of the world. America offered political liberty through self-government and it offered financial liberty through a free market system. Making America great again, however, is not dependent on a Trump presidency but whether you and I can regain the spirit of our forefathers. I am afraid most conservatives (including Trump) have no understanding of this racial time bomb that is ticking. We are living among people who have been disconnected from the spirit, values, morals and faith of our forefathers. Every year that passes, this disconnection becomes wider. And that places a great challenge before us. We are in that

I should have easily won the Trump University case on summary judgement but have a judge, Gonzalo Curiel, who is totally biased against me.

BRING BACK THE DEATH PENALTY.

BRING BACK OUR POLICE!

What has happened to our City over the past ten years? What has happened to law and order, to the neighborhood cop we all trusted to safeguard our homes and families, the cop who had the power under the law to help us in times of danger, keep us safe from those who would prey on innocent lives to fulfill some distorted inner need. What has happened to the respect for authority, the fear of retribution by the courts, society and the police for those who break the law, who wantonly trespass on the rights of others? What has happened is the complete breakdown of life as we knew it.

Many New York families — White, Black, Hispanic and Asian — have had to give up the pleasure of a leisurely stroll in the Park at dusk, the Saturday visit to the playground with their families, the bike ride at dawn, or just sitting on their stoops — given them up as hostages to a world ruled by the law of the streets, as roving bands of wild criminals roam our neighborhoods, dispensing their own vicious brand of related hatred on whomever they encounter. At what point did we cross the line from the fine and noble pursuit of genuine civil liberties to the reckless and dangerously permissive atmosphere which allows criminals of every age to beat and rape a helpless woman and then laugh at her family's anguish? And why do they laugh? They laugh because they know that soon, very soon, they will be returned to the streets to rape and maim and kill once again — and yet face no great personal risk to themselves.

Mayor Koch has stated that hate and rancor should be removed from our hearts. I do not think so. I want to hate these muggers and murderers. They should be forced to suffer and, when they kill,

they should be executed for their crimes. They must serve as examples so that others will think long and hard before committing a crime or an act of violence. Yes, Mayor Koch, I want to hate these murderers and I always will. I am not looking to psychoanalyze or understand them, I am looking to punish them. If the punishment is strong, the attacks on innocent people will stop. I recently watched a newscaster trying to explain the "anger in these young men". I no longer want to understand their anger. I want them to understand our anger. I want them to be afraid.

How can our great society tolerate the continued brutalization of its citizens by crazed misfits? Criminals must be told that their **CIVIL LIBERTIES END WHEN AN ATTACK ON OUR SAFETY BEGINS!**

When I was young, I sat in a diner with my father and witnessed two young bullies cursing and threatening a very frightened waitress. Two cops rushed in, lifted up the thugs and threw them out the door, warning them never to cause trouble again. I miss the feeling of security New York's finest once gave to the citizens of this City.

Let our politicians give back our police department's power to keep us safe. Unhackle them from the constant chaos of "police brutality" which every petty criminal hurls immediately at an officer who has just risked his or her life to save another's. We must cease our continuous pandering to the criminal population of this City. Give New York back to the citizens who have earned the right to be New Yorkers. Send a message loud and clear to those who would murder our citizens and terrorize New York — **BRING BACK THE DEATH PENALTY AND BRING BACK OUR POLICE!**

Dear Mr. Elzanaty,

Please let this letter serve to represent my offer to purchase your site located at 45 Park Place, New York, NY 10007, for what you paid plus 25%. I am making this offer as a resident of New York and citizen of the United States, not because I think the location is a spectacular one (because it is not), but because it will end a very serious, inflammatory, and highly divisive situation that is destined, in my opinion, to only get worse.

As part of the offer, it would be agreed that, if you or your representative were to build a mosque, it would be located at least five blocks further from the World Trade Center site. This offer is for all cash with an immediate closing and is subject only to the finalization and signing of mutually acceptable documents.

Thank you for your attention to this matter. Hopefully, something good can happen!

Sincerely,

Donald J. Trump

Is Donald Trump a Racist?

Nicholas Kristof JULY 23, 2016

Donald Trump and his father, Fred, in 1973 at Trump Village in New York City.
Barton Silverman/The New York Times

“Think about how everything is racist now...before Obama got elected, you really didn’t hear much about race, racism or any of that stuff. He’s brought this all to us...I think he’s done this country more harm in that respect than anybody could.”

“[Muslim immigrants are] expecting us to conform to their culture, rather than they to Americanism. And they look at – we need to build their mosque, but on the other hand we can’t even say prayers in our own schools anymore. And yet we can build mosques across the country.”

“I think we’ll have a very big recession [if Clinton wins]. We’ll have a flood of immigrants come across the border, flooding our health care system, flooding our education system, flooding our prisons. You’ll see a real downturn in the standard of living you now know as American.”

“It’s been a dark eight years. And I mean a **dark** eight years... I’ve watched my country go from a place where I felt safe to a very unsafe world. I don’t feel safe anymore, here.”

“Amid it all, two figures ever stand to typify that day to coming ages, - the one, a gray-haired gentlemen, whose fathers had quit themselves like men, whose sons lay in nameless graves; who bowed to the evil of slavery because its abolition threatened untold ill to all; **who stood at last, in the evening of life, a blighted, ruined form, with hate in his eyes;** - and the other, a form hovering dark and mother-like, her awful face black with **the mists of centuries,** had aforesaid quailed at that white master’s command, had bent in love over the cradles of his sons and daughters, and closed in death the sunken eyes of his wife, - aye, too, at his behest had laid herself low to his lust, and borne a tawny man-child to the world, only to see her dark boy’s limbs scattered to the winds by midnight marauders riding after ‘cursed Niggers.’ These were the saddest sights of that woeful day; and no man clasped the hands of these **two passing figures of the present-past;** but, **hating, they went to their long home, and, hating, their children’s children live to-day.**” (Du Bois, *The Souls of Black Folk*, 1903)
