General Information

SERVICES
Psychological services are provided to infants, children, adolescents, adults, and families including:

- Cognitive and Developmental Assessment
- Psycho-educational Assessment
- Psycho-diagnostic Assessment
- Individual, Couple and Group Therapy
- Consultation

We can help with:

- Learning difficulties
- Developmental concerns (including autism spectrum disorders)
- Parenting support
- Adjustment reactions
- Mood and anxiety issues
- Sexual, gender, and relationship issues

We do not provide emergency psychiatric or crisis services.

The majority of our services are provided by graduate students in Clinical Psychology who are supervised by registered Psychologists.

REFERRALS
Referrals can be made by the client or client’s caregiver, or by community service providers, such as physicians and schools.

FEES
The Psychology Clinic provides psychological services geared to income. The fee schedules are available on our website. Pro bono service is offered and can be discussed at the time of intake.

More information about our services including our referral form is available at:
