Policy on Accepting Payment for Clinical Practicum Courses
(June 2011)

Normally, payment may not be accepted for practicum courses that are required for completion of the Master’s and Doctoral Clinical programs. These include PSYC838*/839*/989*/990*/991*/992*.

Normally, payment may be accepted for practicum courses taken for credit beyond these requirements only if all other academic requirements for the doctoral program have been satisfied and the student has been deemed ready to go on internship by the Chair of the Clinical Program.

For all practicum courses taken for credit, regardless of payment, the following procedures must be followed:

1. The supervisor and site must be vetted by the clinical academic committee;
2. Clear educational goals must be specified; and
3. A practicum evaluation form and grade (pass/fail) must be submitted by the supervisor to the Director of Practica and Internships.
