ANNOUNCING: THE 2018 SUMMER INSTITUTE IN POLITICAL PSYCHOLOGY
at Stanford University from August 5 – August 25, 2018. Applications are being accepted now for the 23th Annual Summer Institute in Political Psychology, to be held at Stanford University August 5-25, 2018. The Summer Institute offers 3 weeks of intensive training in political psychology. Political psychology is an exciting and thriving field that explores the origins of political behavior and the causes of political events, with a special focus on the psychological mechanisms at work. Research findings in political psychology advance basic theories of politics and are an important basis for political decision-making in practice. SIPP was founded in 1991 at Ohio State University, and Stanford has hosted SIPP since 2005, with support from Stanford University and from the National Science Foundation. Hundreds of participants have attended SIPP during these years.

The 2018 SIPP curriculum is designed to (1) provide broad exposure to theories, empirical findings, and research traditions; (2) illustrate successful cross-disciplinary research and integration; (3) enhance methodological pluralism; and (4) strengthen networks among scholars from around the world. SIPP activities will include lectures by world class faculty, discussion groups, research/interest group meetings, group projects, and an array of social activities. Some of the topics covered in past SIPP programs include public attitudes and attitude change, race relations, conflict and dispute resolution, voting and elections, international conflict, decision-making, moral disengagement and violence, social networks, activism and social protest, political socialization, justice, and many more. In 2018, SIPP will accept up to 60 participants, including graduate students, faculty, professionals, and advanced undergraduates. Please visit our website for more information and to find the application to attend: web.stanford.edu/group/sipp/cgi-bin/sipp

Applicants are accepted on a rolling basis until all slots are filled, so applying soon maximizes chances of acceptance. Any questions should be directed to: 2018SIPP@gmail.com

Looking for something to do this summer? Want to spend it canoe tripping in one of Canada’s most spectacular wilderness areas with a group of cool like-minded people?

If so, you should volunteer with Camp Outlook.

What it is: Outlook is a volunteer-run charity with a mission to take teens from disadvantaged backgrounds on canoe trips in Ontario’s Algonquin Park.

Who Outlook volunteers are: A diverse group of people from all kinds of backgrounds, with a shared love of the outdoors.

What they do: They run 9 to 14-day canoe trips from Outlook’s base in Kingston, Ontario from the middle of June until late August.

What training do you need to volunteer for Outlook: None. Outlook puts all its volunteers through a five-week training course in wilderness first aid, lifesaving, youth counselling, canoeing and backcountry skills.

Who the campers are: Teenagers aged 13 to 17 from Kingston and surrounding areas. They come from economically disadvantaged backgrounds, and most have had trouble at home or in school. They’re often challenging, but there is no group of people more rewarding to work with.

What you get for volunteering for the summer: Lifelong friendships. Amazing memories. Stories you’ll be telling for years. Wilderness and youth counselling qualifications that look great on a CV. A unique volunteering experience that will impress future employers. Free room and board for the summer.

When: Volunteering with Outlook is a full time commitment from May 20th till August 25th.

What you need to do: You will need to submit an application ASAP to the following e-mail: summer@campoutlook.ca The deadline is March 23. For more information, check out our website at: http://campoutlook.ca/

Margaret Angus Research Fellowship 2018

Value: $4600.00

Application Deadline: 6 April 2018 at 4:00 p.m.

The Museum of Health Care is accepting proposals for a resident 16-week summer research fellowship (May-September), which will investigate a topic relevant to the history of health and health care. The fellow will communicate the results of their research by posting updates on a biweekly blog, producing a scholarly manuscript that will become part of the Museum’s collection, and giving a public lecture in the fall.

Topics of research should focus on artefacts in the Museum’s collections or key developments/individuals in the history of health care. It must clearly relate to the history and/or science of health and health care.

A list of research topics of current interest to the Museum can be found at http://museumofhealthcare.ca/research-and-collections/topicsofinterest.html. Topics of previous fellowships are listed at http://museumofhealthcare.ca/explore/research-and-collections/research-fellowship.html.

Applications must include:

- A letter of application explaining the candidate’s interest in the fellowship, detailing their suitability for the position, and noting their selected topic.
- An up-to-date CV including the candidate’s name, address and contact information; education to date; previous employment experience; and other relevant activities.
- A brief research proposal (300-350 words), which describes the topic and proposed research plan, reasons for the candidate’s choice of this topic, and how the project would utilize the Museum’s collections, reference materials, and/or exhibits, and/or enhance the Museum’s educational programs.
- Two academic letters of reference.

Submit your application to:

Dr. Jane Errington - Chair, Program Committee
Museum of Health Care, Ann Baillie Building, 32
George Street Kingston, ON, K7L 2V7
museum@kgh.kari.net

*All digital applications MUST be submitted in .doc, .rtf, or .pdf format

Applications must be received by 6 April 2018. Selection of the Fellow will be confirmed by 16 April 2018.

**What is the Communication Disorders Professional Network?**

The Communication Disorders Professional Network provides a forum for students, researchers, and practicing professionals who are interested in communication disorders to learn with and from each other, to build their professional networks, and explore opportunities in our community. Participants will have the opportunity to engage in meaningful dialogue with each other, discussing evidence-based practice and how theory and research translates to clinical work. Meetings are one hour long and will occur four times this semester.

The idea for a communication disorders professional network originated from Christiane Haberl, who is a speech-language pathologist, currently working as a coordinator and professor for the Communicative Disorders Assistant Program at St. Lawrence College in Kingston. Christiane has been a practicing speech-language pathologist for 30 years. In addition to her background in speech-language pathology, she studied Applied Behaviour Analysis as part of her master’s in applied disability studies.

If you plan to attend a particular session, please RSVP to haberlslp@gmail.com before the session. This network is open to students in any program, so feel tell your friends!

Beyond the Birds and the Bees and Was It Good for You?: Thirty-five Years of Research on Sexual Communication

Sexual experience and expression is of fundamental importance to most people. However, most people do not communicate effectively about sexuality even when it is important to do so. For example, many parents see it as their responsibility to talk to their children about sexuality and yet do not engage in in depth discussions with their children about sexual topics. Most romantic partners have difficulty communicating about what pleases and displeases them sexually. Many health care professionals do not meet their clients'/patients' needs for information about the sexual changes they are or may experience. Many psychologists also are not doing a good job of addressing sexuality in the classroom, in practicum and internship settings, and/or with clients. These instances of poor sexual
Communication are unfortunate as effective sexual communication can have a range of positive outcomes such as more
