

Appendix E: Queen's 175 Moments

The historical content of the 175th Anniversary website, which showcased the 175 Moments, was curated by a committee of faculty and staff with submissions from the broader Queen's community. These moments are not intended to represent an exhaustive history of the university, but rather significant sign posts in its development.

Special thanks go to University Historian Duncan McDowall for his contributions. Many thanks also go to the people of Queen's University Archives for their support of this anniversary project.

175 Moments titles
