## MARKING

---

Marking art can be somewhat more subjective than marking in other fields. All professors and instructors mark differently and emphasize different aesthetic approaches. Each of your professors *must* include in their syllabus their evaluation criteria. Speak to your professor if you are unsure about the criteria being used to evaluate your work. If you have any questions about your marks, ask your professor for feedback. Feedback may take different forms: some professors give feedback during critiques and others might write notes. Remember that faculty office hours are intended to ensure that you can see a professor about any questions you might have.

# ONTARIO HALL SAFETY REGULATIONS

---

PLEASE READ THE FOLLOWING VERY CAREFULLY

For your own safety and the safety of others it is necessary for you to understand and comply with Department Regulations and with those of the Ontario Health and Safety Act as they apply to this building. Painting, Drawing, Printmaking, Sculpture/New Media have specific safety regulations, and your professors will distribute these to you. However, there are a number of regulations for the department as a whole:

1. Under no circumstances are you to obstruct access to Fire Equipment or obstruct passageways as defined by the yellow fire lines on the floors, even temporarily. Do not block EXITS or STAIRWELLS with your art work or materials/art supplies. If items are found in these areas, it is within the department's safety obligations to remove it.
2. There is an Emergency Call Button located at the 1<sup>st</sup> Floor Front Entrance and an ASSISTANCE PHONE on the 3<sup>rd</sup> Floor near the BFA Lounge (OZONE.)
3. If there is a fire alarm, leave the building in an orderly fashion by the stairwells only. Do not use the elevator! Do not return to the building until you are given proper authorization. There are fireproof containers for all oily and solvent permeated rags. Make sure you use these for hazardous waste.
4. Consumption of food or drink is not allowed in Ontario Hall for the duration of pandemic measures.
5. Building hours are: Doors Unlocking: 7:00 am Doors Locking: 11 pm, Monday thru Sunday. YOU ARE NOT PERMITTED TO WORK IN THE BUILDING AFTER USER HOURS. Do not work in the building on your own at any time. You should always have a fellow BFA student on the same floor, preferably in the same room. You are encouraged to use a buddy system with your BFA student colleagues. If you do work alone, please utilize the Campus Security Lone Worker Program. To contact the Lone Worker Program, call 613-533-6080 and report where you are working, how long you expect to be there, and if you will require an escort when you leave. You can now use the "Work Alone" feature on the SeQure app and set up automated monitoring. This feature is only available on campus, location services and notifications must be turned on to use this service.
6. FIRST AID KITS ARE PROVIDED FOR EACH AREA. They are primarily outfitted for minor injuries. In the event of an emergency, call 533-6111 (from an internal phone, dial only 36111.) These phone numbers are posted on safety boards throughout the building.
7. This building is very old and dry, which makes it extremely susceptible to FIRE. Therefore, there is absolutely NO SMOKING permitted anywhere in the building. NO Alcohol on the premises.

8. BICYCLES are not to be stored in the building or attached anywhere on the building. Bicycles are to be parked only in bicycle racks or they will be taken away by security/Physical Plant Services.

## GENERAL STUDIO SAFETY RULES

---

**PROJECT APPROVAL:** Secure your instructor's approval for all work you plan to do in the studios/workshops. He or she is the one to decide if the work can be done, and will be able to suggest the best, easiest, and safest way to do it.

**CLOTHING:** Dress properly for your work. Remove coats and jackets, roll up loose sleeves. It is advisable to wear a shop apron that is snugly tied and protective shoes.

**EYE/EAR/LUNG PROTECTION:** Wear safety glasses/Face Shield/ear protection/ mask when doing any operation that may endanger your eyes, ears and lungs.

**CLEAN HANDS:** Keep your hands clean and free of oil or grease. You will do better and safer work, and the tools and your project will stay in good condition.

**CONSIDERATION OF OTHERS:** Be thoughtful and helpful toward other students in the class. Be sure that the work you are doing does not endanger someone else. Caution other students that are violating safety rules. Do not move studio furniture/supplies out of other studios or into the hallways. Do not prop studio doors open.

**TOOL SELECTION:** Select the proper size and type of tool for your work. An expert never uses a tool unless it is sharp and in good condition. Inform your instructor/technician if tools are broken, have loose handles, or need adjustment. REMEMBER to unplug all electrical tools after use.

**CARRYING TOOLS:** Keep sharp and pointed tools turned down. Do not swing or raise your arms over your head while carrying tools. Carry only a few tools at one time, unless they are in a special holder. Do not carry sharp tools in the pockets of your clothes.

**USING TOOLS:** Hold tools in the correct position while using them. Most edged tools should be held in both hands with the cutting motion away from yourself and other students. Be careful when using your hand or fingers as a guide to start a cut. Test the sharpness of a tool with a strip of paper or scrap wood. DO NOT USE YOUR FINGERS.

**WORKING SPEED:** Do not rush and tear through your work. A steady and unhurried pace is safest for you and those around you.

**TABLE/BENCH ORGANIZATION:** Keep your project materials carefully organized on your table/bench with tools located near the center. Do not pile tools on top of each other. Never allow edged or pointed tools to extend out over the edge of the work area. Close your vise when it is not in use and see that the handle is turned down. Keep drawers and doors closed and cover all paint/mediums and solvents with airtight spill proof lids and containers.

**FLOOR SAFETY:** The floor should be kept clear of scrap paper/canvas and excessive litter. Keep projects, materials and other equipment you are using out of fire/traffic lanes. Immediately clean up any liquid spills on the floor.

**MATERIAL AND PROJECT STORAGE:** Store and stack your project work carefully in ASSIGNED AREAS only. If storage is overhead, be sure the material will not fall off. Do not leave anything protruding from the end of the storage racks, especially at or near eye level.

**FIRE PROTECTION:** Many finishing materials, varnish, thinners, etc. are highly flammable. Others are toxic. Because of this, it is important that these materials be used only in approved areas. In addition, close containers of finishing materials immediately after use. Use flammable liquids in very small quantities. Be sure all containers are labeled. Dispose of oily rags and other combustible materials immediately in approved metal containers. Secure the instructors/technicians approval before you bring any of your own materials/supplies into the studio/shop.

**INJURIES:** Report all injuries and near misses to your instructor, area Technician or Health and Safety Officer.

**ENVIRONMENTAL PROTECTION:** All Hazardous Waste must be labeled. No hazardous materials are permitted in washrooms. The last person to exit the studio should make sure everything is turned off, lights, water, hotplate etc. When studios are in use, check to ensure the ventilation system is working properly (paper strips.) Good housekeeping should be a priority in every area you work.
