

### The Site

**Cerveteri** is a town on the West coast of Italy, 48 km North of Rome, which lies on the site of the Etruscan city of **Cisra, called Caere by the Romans**. Caere was one of the metropolises of the ancient Mediterranean, a rich and powerful city which was an ally of Carthage and developed good relationships with its southern neighbors the Romans. The site is famous for its necropolis of rock-cut tombs imitating houses complete with carved furniture and decorations, listed among the UNESCO World Heritage Sites. Many of the most famous Etruscan artworks, such as the Sarcophagus of the Spouses, were found in the tombs of Caere. While the cemetery has early attracted scholarly attention, the exploration of the city has begun much later and its general plan is still largely unknown.

### The Project

The team of the Queen's University is **investigating the urban area of the ancient city** where a regular urbanization pattern is coming to light. In 2025, we will explore a newly discovered **temple** and its surroundings.

**Field activities** will include classes on Etruscan and Roman archaeology, field methods of archaeology, field conservation, and other topics of interest. During weekends daytrips to **Rome and to Etruscan and Roman sites and museums** of the region will be organized.

On Sundays, students have the opportunity to travel at their leisure. The town itself is very close to Rome and is easily accessible by train. Although Rome is one of the primary destinations for Sunday travels, there is plenty of options including Florence and Pisa.

### How to Join

Participants can either enrol into the **full-credit course CLST 409 Archaeology Fieldwork Practicum** or the graduate course **CLAS 809** or join as **volunteers**. The program can accommodate up to 30 participants a year. **Non-Queen's students** may ask for **credit transfer** with the approval of their home institution. **Program dates: May 17<sup>th</sup> (check in) – June 14<sup>th</sup> (check out), 2025**

**How to apply** Fill the application form posted on the website of the Department of Classics and return it via e-mail to the project director Dr. Fabio Colivicchi (colivicf@queensu.ca)
