

Dr. Robert G. Way

Nunatsiavut Beneficiary (Kallunângajuk) from Happy Valley-Goose Bay, Labrador

CURRENT POSITION: Associate Professor (tenured), Department of Geography and Planning, Queen's University, Kingston, Ontario, Canada, Email: robert.way@queensu.ca

INTERESTS: Northern science, Arctic and Subarctic ecosystem science, community-based research, climate change adaptation, ecohydrology, geocryology, glaciology, remote sensing, spatial analysis

ACADEMIC / EDUCATION BACKGROUND

Assistant Professor (Tenure-Track)	Queen's University Department of Geography and Planning Assistant Professor of Physical Geography	2018-present
Postdoctoral Fellowship	Memorial University of Newfoundland Hosted at the Labrador Institute W. Garfield Weston Postdoctoral Fellowship Project: <i>Implications of rapid shrub growth on permafrost environments in northern Labrador</i> Supervisor: Dr. Carissa Brown	2017-2018
Doctoral Degree (Ph.D.)	University of Ottawa Department of Geography, Environment and Geomatics Contributing graduate course(s) from University Centre in Svalbard Dissertation: <i>Field and modelling investigations of permafrost conditions in Labrador, northeast Canada</i> Supervisor: Dr. Antoni G. Lewkowicz	2013-2017
Master's Degree (M.Sc.) & Graduate Diploma in Teaching (2012)	Memorial University of Newfoundland Department of Geography Thesis: <i>The glaciers of the Torngat Mountains of northern Labrador</i> Supervisor: Dr. Trevor J. Bell	2010-2013
Undergraduate Degree (H. BA.) - Magna Cum Laude	University of Ottawa Department of Geography, Environment and Geomatics Honours Bachelor of Arts with specialization in geography, minor in geomatics and spatial analysis. Contributing undergraduate courses from <i>Athabasca University (Introduction to Statistics)</i> , <i>University of New Brunswick (GIS and Forestry 1; GIS and Forestry 2; Digital Image Processing)</i> and <i>University of Oslo (Nordic Geomorphology; Glaciology; Glacial and Periglacial Geomorphology; Advanced Remote Sensing; Special Topics in Remote Sensing)</i>	2007-2010

EMPLOYMENT HISTORY

Assistant Professor (tenure-track)	Department of Geography and Planning, Queen's University	July 2018 – present
W. Garfield Weston Postdoctoral Fellow	Labrador Institute, Memorial University of Newfoundland	Fall 2017 – Summer 2018
Field Researcher and Research Assistant¹	Department of Geography, University of Ottawa	Summer 2015
Field Researcher and Research Assistant²	Department of Geography, University of Ottawa	Summer 2013
Geographic Information System Specialist³	Institute for Environmental Monitoring and Research, Happy-Valley Goose Bay Labrador	Summer 2010
Geographic Information System (Student)⁴	Crown Lands Division, Department of Environment and Conservation, Government of Newfoundland and Labrador	Summer 2008

¹Accompanied Dr. Antoni G. Lewkowicz as a field assistant in the southern Yukon and northern British Columbia. The primary goal of this contract was to assist in maintaining remote weather stations and permafrost monitoring locations across the southern Yukon and northern British Columbia.

²Conducted preliminary field research and organized logistics for initiation of the Labrador Permafrost Project. The primary goal was the establishment of a network of permafrost monitoring stations across the Labrador-Ungava region to support my doctoral research.

³Developed a primary database of ecological indicators being monitored as part of ongoing studies examining the effects of military activity on wildlife and ecosystems in central Labrador. Work primarily focused on ingesting and utilizing satellite collar-based tracking of movements of the George River and Red Wine caribou herds in support of low-level flying activities at 5-Wing Goose Bay. Field work comprised the establishment of small mammal monitoring stations in the lower Churchill River Valley near Muskrat Falls.

⁴Student position aimed at georeferencing aerial photography and mapping existing and prospective cabin dwellings in central and western Labrador. Field work consisted of visiting farmland dwellings to assess land parcel dimensions in support of mitigation activities for contaminants associated with 5-Wing Goose Bay.

TEACHING EXPERIENCE

Winter 2024	Instructor Processes in Northern Regions (GPHY 824)	Department of Geography and Planning, Queen's University
Fall 2023	Instructor Northern and Arctic Environments (GPHY 304) & Climate Change (GPHY 314)	Department of Geography and Planning, Queen's University
Winter 2023	Instructor Directed readings: Advanced studies in earth system science 1 (GPHY 890)	Department of Geography and Planning, Queen's University
Fall 2022- Winter 2023	Parental leave	Department of Geography and Planning, Queen's University
Spring 2022	Instructor Climate Change (GPHY 314)	Department of Geography and Planning, Queen's University
Fall 2021- Winter 2022	Bereavement leave	Department of Geography and Planning, Queen's University
Winter 2021	Instructor Applied Cold Regions Science (GPHY 305) & Approaches to Data in Geographic Enquiry (GPHY 854)	Department of Geography and Planning, Queen's University
Fall 2020	Instructor Climate Change (GPHY 314)	Department of Geography and Planning, Queen's University
Fall 2019	Instructor Weather and Climate (GPHY 209) & Climate Change (GPHY 314)	Department of Geography and Planning, Queen's University
Winter 2019	Instructor The North (GPHY 371)	Department of Geography and Planning, Queen's University
Fall 2017	Instructor Methodological and Theoretical Approaches in Geography and Environmental Studies (GEG4104)	Department of Geography University of Ottawa

Fall 2017	Instructor Introduction to Physical Geography (GEG 1301)	Department of Geography University of Ottawa
Spring 2015	MOOC lecturer Denial101x: Making Sense of Climate Science Denial	Administered through edX University of Queensland
Fall 2013	Teaching Assistant and Laboratory Instructor Introduction to Remote Sensing (GEG 3105)	Department of Geography University of Ottawa
Fall 2011	Teaching Assistant and Laboratory Instructor Introduction to Geographical Information Systems (GEOG 2195)	Department of Geography Memorial University of Newfoundland
Fall 2010	Teaching Assistant and Laboratory Instructor Physical Geography (GEOG 2102)	Department of Geography Memorial University of Newfoundland

ADMINISTRATIVE SERVICE

2019 – 2021 2023 –	Academic Appointments Committee Member Three completed searches, one incomplete search, one ongoing search.	Department of Geography and Planning, Queen’s University
2018 – 2019 2023 –	Queen’s Northern Research Symposium Faculty Liaison	Department of Geography and Planning, Queen’s University

HIGHLY QUALIFIED PERSONNEL SUPERVISION, MENTORSHIP & EXAMINATION

Co-supervisor w/Dr. Andrew Trant	Katryna Barone, MSc Student School of Environment, Resources and Sustainability University of Waterloo	2023 – Ongoing
Principal Supervisor	Victoria Colyn, MSc Candidate Department of Geography & Planning, Queen’s University	2022 – Ongoing
Principal Supervisor	Yifeng Wang, PhD Candidate (A.B.D.) Department of Geography & Planning, Queen’s University	2020 – Ongoing
Principal Supervisor (Graduated)	Jordan Beer, Master of Science Department of Geography & Planning, Queen’s University Thesis: <i>Evaluating peatland permafrost characteristics and vulnerability along the Labrador Sea coastline using uncrewed aerial vehicles</i> Current position: Resource Management Officer II, Wood Buffalo National Park	2021 – 2023

Principal Supervisor (Graduated)	Anika Forget, Master of Science Department of Geography & Planning, Queen's University Thesis: <i>Uncovering the Ground Thermal Regime of Coastal Labrador: The Influential Effects of Snow and Vegetation on Ground Temperatures</i> Current position: Canadian Ice Service, QC	2020 - 2023
Principal Supervisor (Graduated)	Rosamond Tutton, Master of Science Department of Geography & Planning, Queen's University Thesis: <i>Exploring measurement and ground thermal influences of snow depth in Nunatsiavut, NunatuKavut and Nitassinan</i> Current position: Cold Regions Hydrologist, YK	2019 – 2021
Mentor, Field Supervisor & Research Partner	Dr. Emma Davis, Weston Postdoctoral Fellow University of Waterloo (supervisor A. Trant) Current position: Forest Ecosystems Scientist, NL	2020-2022
Supervisory Committee Member & Thesis Examiner	Carolyn Bonta, PhD Thesis Department of Geography & Planning, Queen's University Thesis: <i>Recent changes in vegetation productivity on the Bathurst Caribou Range</i>	2019 – 2023
Supervisory Committee Member & Thesis Examiner	Madeleine Garibaldi, PhD Thesis Department of Geography, University of Lethbridge Thesis: <i>Understanding the spatial and temporal heterogeneity of permafrost at a range of scales across the Western Canadian Arctic and Subarctic</i>	2018 – 2023
Thesis Examiner (External)	Patrick Jardine, Master of Science Department of Geography and Environmental Studies, Carleton University, Ottawa, Canada Thesis: <i>Reduction of ground surface temperatures beside highway embankments by snow compaction, central Yukon, Canada</i>	2023
Thesis Examiner (Internal-External)	Thomas Stanton, Master of Science Department of Geography & Planning, Queen's University Thesis: <i>Soil properties and trace gas fluxes in a chronosequence of permafrost disturbances, Cape Bounty, Melville Island, Nunavut</i>	2023
Thesis Examiner (External)	Jason Dicker, Master of Arts Environmental Policy, Grenfell Campus, Memorial University of Newfoundland and Labrador Thesis: <i>Using integrated resource management and the public trust doctrine to examine wildlife management</i>	2020

*practices in northern Labrador: A case study on the George
River Caribou Hunting Ban*

**Thesis Proposal
Examiner (External)**

Frédéric Dwyer-Samuel, MSc Candidate
Biology, University de Montréal

ACADEMIC AWARDS AND DISTINCTION

Inuit Recognition Award, ArcticNet Inuit Advisory Committee	N/A	2019
W. Garfield Weston Postdoctoral Fellowship	\$50,000	2017-2018
Postdoctoral Fellowship, Natural Sciences and Engineering Research Council of Canada (<i>declined</i>)	\$90,000	2017-2019
W. Garfield Weston Award for Northern Research	\$50,000	2016-2017
James Bourque Scholarship for Northern Research	\$5,000	2016
Fellow, Cryosphere Working Group, International Arctic Science Committee	N/A	2015-2016
Northern Scientific Training Program, Canadian Polar Commission	\$18,000	2011-2016

Northern Resident Scholarship, Association of Canadian Universities for Northern Studies	\$10,000	2014-2015
Canada Graduate Scholarship, Natural Sciences and Engineering Research Council of Canada	\$105,000	2014-2017
High North Scholarship, University Centre in Svalbard	\$ 5,400	2014
Excellence Scholarship, University of Ottawa	\$36,000	2013-2017
Best article of 2013, <i>Environmental Research Letters</i>	N/A	2013
Fellow of the School of Graduate Studies, Memorial University of Newfoundland	N/A	2013
W. Garfield Weston Award for Northern Research, Association of Canadian Universities for Northern Studies	\$15,000	2011-2012
Featured in Canadian Geographic ('The cryosphere kid')	N/A	2010
Entrance scholarship, University of Ottawa.	\$3,000	2007-2008

RESEARCH FUNDING SECURED (TOTAL FUNDING: > \$1,800,000)

2023-2026	Canada-Inuit Nunangat-United Kingdom Arctic Research Program – Impacts of cryosphere-hydrosphere change on ecosystems and livelihoods in northern Nunatsiavut, Canada (Principal Investigator)	\$449,500
2020-2021	ArcticNet Inc., National Centres of Excellence – Aircraft Support Fund for Understanding and predicting future climate-vegetation-cryosphere interactions in Nunatsiavut, Nunavik and NunatuKavut (Project leader)	\$15,000
2020-2023	Canadian Foundation for Innovation – Ontario Research Fund-Queen’s University (Principal Investigator).	\$256,291
2020-2026	Northern Research Supplement, Natural Sciences and Engineering Research Council of Canada Discovery Grants Program - Susceptibility of peatland permafrost in coastal Labrador to future environmental change (Principal Investigator).	\$90,000

2020-2026	Natural Sciences and Engineering Research Council of Canada Discovery Grants Program - Susceptibility of peatland permafrost in coastal Labrador to future environmental change (Principal Investigator).	\$150,000
2019-2024	ArcticNet Inc., National Centres of Excellence - Understanding and predicting future climate-vegetation-cryosphere interactions in Nunatsiavut, Nunavik and NunatuKavut (Project leader)	\$360,239
2022-2023	Canada Centre for Remote Sensing, Natural Resources Canada - Permafrost Observations in Labrador and Northeast Quebec to support Permafrost Modelling and Mapping for Cumulative Effects	\$23,360
2020-2021	Canada Centre for Remote Sensing, Natural Resources Canada - Permafrost Observations in Labrador and Northeast Quebec to support Permafrost Modelling and Mapping for Cumulative Effects	\$15,281
2018-2019	W. Garfield Weston Foundation, Parks Canada (<i>in-kind</i>) and the Nunatsiavut Government (Principal Investigator).	\$34,762
2018-2021	Indigenous Community-Based Climate Monitoring Program, Indigenous and Northern Affairs Canada – Coastal and Labrador climate and weather monitoring program (Principal Investigator)	\$305,894
2017-2019	Polar Knowledge Canada – Project title: <i>Food, fire and ice: Integrating local knowledge, plant response, and cryosphere dynamics to predict future food and fuel</i> (Co-applicant)	\$247,069
2017-2018	W. Garfield Weston Foundation, Parks Canada (<i>in-kind</i>) and the Nunatsiavut Government (Co-Principal Investigator).	\$39,025
2016-2017	W. Garfield Weston Foundation, Parks Canada (<i>in-kind</i>) and the Nunatsiavut Government (Co-Principal Investigator).	\$26,000

SCHOLARLY AND PROFESSIONAL ACTIVITIES, ASSOCIATIONS & MEMBERSHIPS

2023-Present	Canadian Meteorological and Oceanographic Society (Member)
2022-Present	ClimAtlantic (Board of Director)
2020-Present	Canadian Permafrost Association (Lifetime Member)
2013-Present	Permafrost Young Researchers Network (Member)
2010-Present	Association of Polar Early Career Scientists (Member)
2010-2014	International Glaciological Society (Member)

REVIEWING ACTIVITY FOR ACADEMIC JOURNALS

2023	Reviewer for the journal <i>Journal of Climate</i>
2023	Reviewer for the journal <i>Environmental Research Letters</i>
2021	Reviewer for the journal <i>Weather, Climate and Society</i>
2020/2022/2023	Reviewer for the journal <i>Arctic Science</i>
2019	Reviewer for the journal <i>Nature Communications</i>
2018	Reviewer for the journal <i>Journal of Geophysical Research: Earth Surface</i>
2018	Reviewer for the journal <i>Remote Sensing Letters</i>
2018	Reviewer for the journal <i>Journal of Visualized Experiments</i>
2017/2020/ 2021/2022/2024	Reviewer for the journal <i>Permafrost and Periglacial Processes</i>
2017	Reviewer for the journal <i>Nature Climate Change</i>
2016 & 2017	Reviewer for the journal <i>Geografiska Annaler: Series A, Physical Geography</i>
2016	Reviewer for the journal <i>International Journal of Climatology</i>
2015/2016/2017	Reviewer for the journal <i>The Cryosphere</i>
2014	Reviewer for the journal <i>International Journal of Remote Sensing</i>
2014	Reviewer for the journal <i>Computers and Geosciences</i>
2013	Reviewer for the journal <i>Geomorphology</i>

OTHER REVIEWING ACTIVITY

2022	Peer Reviewer for the <i>Canadian Mountain Assessment</i>
2020	External Reviewer for <i>NSERC Discovery Grant Program</i>
2020	Review Committee Member for <i>Polar Continental Shelf Program</i>
2020	Chapter Peer Reviewer for the <i>Canadian National Climate Assessment</i>

SUMMARY OF OTHER RELEVANT ACTIVITIES AND SKILLS: I have completed a variety of courses relevant for field research activities including the student Arctic safety course at the University Centre in Svalbard and a Bear Safety Training program that qualifies me to be a certified bear guard within Inuit Nunangat. I hold an active pleasure craft operator card and an active emergency field aid certification. I also have an active firearms acquisition certificate and possession and acquisition licence. I have previously completed wilderness first aid and safety course, the trappers education course and a Polar Bear Safety course. I am an avid skier, snowshoer

and snowmobiler, and have extensive camping experience in remote environments. I have conducted field work or course activities in a variety of harsh environments including the Antarctic Peninsula, northern British Columbia, Iceland, southern Labrador, southern Norway, Patagonia, Svalbard, the Torngat Mountains, and the southern Yukon. I am also a contributing writer to the '*Scientific Guide to Global Warming Skepticism*' (downloaded >800,000 times). Author at the science communication website Skeptical Science (~20 articles) looking at various issues including the Antarctic and Greenland Ice Sheets, Arctic temperature changes, natural and anthropogenic climate variability, climate change impacts on Inuit, recent glacier changes and several other topics. I am a contributor to both the IRIS-2 and IRIS-4 ArcticNet working groups.
