**Please note, this textbook has an “e-version” as well, which you can purchase instead of the hard copy. Either option is fine. Also, this book has a number of online resources associated with it. You are welcome and encouraged to take advantage of these resources but they are not formally part of the course content (i.e., they are optional). If you choose to buy an older edition of this textbook, please note that you are responsible for all of the information in the 2015 version.

Description of Course

The study of social psychology is a fascinating field, certainly one that readily applies to our lives. In this course, I will provide you with a general overview of research and theory in social psychology, based on classic and contemporary findings from the social psychological literature. This course is research-oriented. You will also learn about the scientific methods used by researchers in social psychology to conduct valid research.

Course Policies

Because of the size of the class, it will be largely lecture based. I do, however, encourage (and welcome!) class participation. If you have a question, please feel free to ask it! I also will incorporate class demonstrations and activities as time permits. The class is more fun when everyone gets involved.

Please be respectful toward your classmates. Try to show up to class on time. I will dismiss class at 2:20 on Wednesdays, and 12:50 on Fridays. Please do not start packing up and leaving before that, as it may be distracting to others.

Schedule

It is strongly recommended that you read the assigned chapter before each class--the lectures will be more meaningful if you are familiar with the material to be discussed.

Description of Grading System

Thought Papers

You will be assigned two papers that will give you the opportunity to apply what you have learned in the course. Please note that we will be enforcing a very strict word limit on these papers (500 words maximum). I will assign those papers three weeks before they are due. They will be turned in and handed back online.

Examinations

There are three exams. The marking scheme for each is as follows:

Part A. Fifteen multiple choice questions, @ 1 marks = 15 marks.

Part B. Five short answer questions, @ 2 marks = 10 marks

Part C. One short essay question worth 5 marks = 5 marks

Notes: The exams, including the final examination, are non-cumulative (i.e., the content will focus on one third of the course material). If you are unable to write an examination, you will be required to show a medical certificate or other documentation. In such cases, the other two examinations will be worth 45% of your grade.

All components of this course will receive numerical percentage marks. The final grade you receive for the course will be derived by converting your numerical course average to a letter grade according to Queen's Official Grade Conversion Scale, as follows:

Grade	Numerical Course Average
A+	90-100
A	85-89
A-	80-84
B+	77-79
B	73-76

C	63-66
C-	60-62
D+	57-59
D	53-56
D-	50-52
F	49 and below

Statement on Academic Integrity:

Academic integrity is constituted by the five core fundamental values of honesty, trust, fairness, respect and responsibility (see www.academicintegrity.org). These values are central to the building, nurturing and sustaining of an academic community in which all members of the community will thrive. Adherence to the values expressed through academic integrity forms a foundation for the "freedom of inquiry and exchange of ideas" essential to the intellectual life of the University (see the Senate Report at <http://www.queensu.ca/secretariat/policies/senateandtrustees/principlespriorities.html>).

Students are responsible for familiarizing themselves with the regulations concerning academic integrity and for ensuring that their assignments conform to the principles of academic integrity. Information on academic integrity is available in the Arts and Science Calendar (see Academic Regulation 1 <http://www.queensu.ca/artsci/academic-calendars/2011-2012-calendar/academic-regulations/regulation-1>), on the Arts and Science website (<http://www.queensu.ca/artsci/academics/undergraduate/academic-integrity>), and from the instructor of this course. Departures from academic integrity include plagiarism, use of unauthorized materials, facilitation, forgery and falsification, and are antithetical to the development of an academic community at Queen's. Given the seriousness of these matters, actions which contravene the regulation on academic integrity carry sanctions that can range from a warning or the loss of grades on an assignment to the failure of a course to a requirement to withdraw from the university.

Copyright of Course Materials:

This material shall not be distributed or disseminated to anyone other than students registered in Psychology 241. Failure to abide by these conditions is a breach of copyright, and may also constitute a breach of academic integrity under the University Senate's Academic Integrity Policy Statement.

Disability Accommodations

Queen's University is committed to achieving full accessibility for persons with disabilities. Part of this commitment includes arranging academic accommodations for students with disabilities to ensure they have an equitable opportunity to participate in all of their academic activities. If you are a student with a disability and think you may need accommodations, you are strongly encouraged to contact the Disability Services Office (DSO) and register as early as possible. For more information, including important deadlines, please visit the DSO website at: <http://www.queensu.ca/hcds/ds/>
