Why GRADUATE STUDIES in PSYCHOLOGY?

Psychology is a particularly diverse profession encompassing research, teaching and applied work. While the two former activities are relevant mainly, but by no means exclusively to universities, applied psychologists work in a wide variety of settings including: industry, management, the school systems, private practice, penitentiaries, and hospitals. Like members of all professions, the conduct of psychologists whether they are engaged in practice, teaching or research, is regulated by principles, standards and by statute. In Ontario persons who call themselves a psychologist must meet at least, one of three criteria: they must be a university professor, be employed in a psychologist’s position by the federal penitentiary service, or must be registered.

Why QUEEN’S?

The graduate program in Psychology at Queen’s is internationally renowned for its excellent faculty and students, its innovative training and the value of its research, scholarship and skill development. We offer a wide range of Programs in core areas of Psychology, with a strong emphasis on fundamental research and discovery, as well as intensive training in clinical skills and applications. Our Department and Queen’s host world-class researchers and a number of state-of-the-art techniques and laboratories. Our goal is to prepare students for successful careers in a variety of settings, including academic institutions, clinical and health care settings, industry and the private sector, education, and many others.

“I find that I’m getting a really good balance of experiences here. I’ve had the opportunity to travel a lot. In the last two years, I’ve presented at conferences in Halifax, Chicago, Washington D.C. and Puerto Rico.”
– Karen Blair, PhD
