Queen’s University
Department of Psychiatry
LAB TALKS
Monday, November 11, 2019
Kingston General Hospital
Burr 4 Conference Room
21-4-005

12:00 – 1:00 pm  Caroline Wallace  “CAN-BIND12: The Gut-Brain Axis & Implications in Psychiatry”

Queen’s Psychiatry Lab Talks is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada

Learning Objectives: At the end of this presentation, participants will be able to:
1. understand how the gut-brain axis mediates the relationship between nutrition & mental health
2. understand the potential role for probiotics in alleviating depressive symptoms
3. learn about CAN-BIND12, the ongoing study in the department examining this relationship

Please RSVP to Susan Beck at becks@providencecare.ca  A light lunch will be provided
